

Application for Summer 2024 Internship Franklin County Coroner's Office

This internship is designed to be a 12-week experience that will provide students with opportunities to experience death investigations, morgue operations and the administrative side of a Coroner's office by working at the Franklin County Forensic Science Center in Columbus, Ohio. Students will typically work three days per week and will complete an independent project with a presentation at the conclusion of their internship.

Please complete this page and email, along with an updated resume and a cover letter that describes why you'd like to participate in this internship, to HRCoroner@franklincountyohio.gov Applications will be considered as they are received. **No applications will be considered after May 23, 2024**, for summer 2024.
